Hailo USA locates in City of Elberton

ECG's Economic & Community Development is proud to announce that Hailo USA is locating its headquarters and manufacturing facility in Elbert County. **Hailo will bring 200 jobs and invest \$10 million in Elberton.**

Hailo USA manufactures aluminum ladders and lifts for the wind turbine industry.

ECG partnered with the Elbert County Development Authority and the Georgia Department of Economic Development (GDEcD). ECG was a part of the project team from the beginning of the nine month process and worked in tandem with the consultants in helping Hailo make a location decision in Elberton.

"It is energizing to have a company of the caliber of Hailo join our business community," said Elberton Mayor Larry Guest. "We look forward to watching Hailo find success in Elberton for many years to come. Our community worked as a team along with ECG to bring this project to Elberton. Walt Farrell of ECG, Anna Grant Jones of Elberton Economic Development and Jim Blair with GDEcD were key players in the process."

"ECG is very proud to be part of the team that assisted Hailo USA in finding a location in Elbert County that met their requirements for establishing their headquarters. Hailo USA will be a great corporate partner for Elberton by creating new jobs and invigorating the community," said Walt Farrell, ECG Project Manager.
