## CDBG Section 108 Loan Guarantee Program

Application Period: ongoing

Type: Loan Guarantee

The CDBG Section 108 Loan Guarantee Program is an economic and community development financing tool authorized under Section 108 of Title I of the Housing and Community Development Act of 1974, as amended. The program is a method of assisting non-entitlement local governments with certain unique and large-scale economic development projects that cannot proceed without the loan guarantee. In order to be eligible a project must meet all applicable CDBG requirements and result in significant employment and/or benefit for low and moderate income persons. Projects that are eligible for financing under existing federal, state, regional or local programs will generally not be considered for guarantee assistance unless the programs would fail to fully meet a project's need.

Unlike the traditional CDBG or EIP Program, the Section 108 Program does not operate through assistance from the Department of Community Affairs (DCA). Rather, funds are raised through DCA's "Pledge of Grants" to the U.S. Department of Housing and Urban Development (HUD) in order to obtain a federal guarantee of notes issued by the local government. The federally guaranteed notes are sold into private markets through public offerings conducted by HUD. By approving the project, the State pledges its future CDBG funds as the ultimate repayment source should a Section 108 loan default. The State's participation in the Section 108 program does not involve a pledge of Georgia's full faith and credit nor does it commit any funding to the local government. HUD makes the ultimate approval or denial of the federal guarantee.
